Anthony Tucci
Western Berks Ambulance Association
2506 Belmont Ave.
West Lawn, PA 19609

Letter of Agreement

This letter will formalize an agreement between Richard R. Blain & Associates, LLC (RRBA), North Andover, MA and Western Berks Ambulance Association, West Lawn, PA for professional consulting services as outlined in a discussion on June 23, 2025.

RRBA will conduct a Capital Fundraising Feasibility Study for Western Berks Ambulance Association. This service will commence on or about July 15, 2025. A Report of Findings and Recommendations will be presented upon completing interviews, approximately eight- ten weeks from the beginning of said interviews.

The purpose of the study will be to determine fund raising potential, appropriate campaign structure and timing, as well as to accomplish other related objectives as discussed. In conducting the study, RRBA will interview 30-40 individuals selected by Western Berks Ambulance Association, in consultation with RRBA. Interviews will be conducted in-person and via Zoom, as requested by study participants.

A Preliminary Case for Support (Case Statement) will be prepared by RRBA for your approval. It will explain the needs to be addressed by the proposed capital campaign including new ambulances and equipment. And it will explain the rationale for conducting such a fundraising effort.

Richard R. Blain, CFRE, Principal of RRBA will conduct at least 50% of the interviews, assisted by Meggan Kerber, an RRBA consulting associate. Scheduling of interviews will be conducted by an RRBA associate.

After thorough analysis of the accumulated data by both consultants involved in the project a final report will be prepared and presented to the Administration and Board by Mr. Blain.

Richard R. Blain & Associates will work closely with Anthony Tucci, Executive Director, and appropriate Board members, in preparing for and conducting the study. Progress reports will be routinely presented throughout the course of the project.

The fee for conducting this fundraising feasibility study is \$27,000 payable in three installments:

Upon signing contract	\$9,000
Midway through the study	9,000
Upon presentation of the report	9,000

Western Berks Ambulance Association will also be responsible for reasonable and mutually agreed upon expenses for travel and other project-related items. These expenses will be billed as incurred (on a monthly basis) and are due upon receipt of the invoice. Whenever possible, expenses will be shared with other area clients being serviced concurrently.

Richard R. Blain & Associates, as professional fund-raising counsel will not at any time have custody or control of contributions.

Western Berks Ambulance Association, the charity, will exercise control and approval over the content and volume of any communications and solicitation.

Richard R. Blain & Associates would be privileged to assist Western Berks Ambulance Association with this important and exciting project and would appreciate the opportunity to do so.

Safety Stick Implementation – The Block – 900 Block of Hill Ave.

As previously discussed at Fire and Police Committee meetings, a potential solution for monitoring time-limited parking in the 900 block of Hill Avenue has been identified. I recommend implementation through the use of **Safety Stick technology**.

Council Decisions Needed:

To proceed, the Borough Council must first decide:

1. Whether time-limited parking will be permitted.
2. The duration of the time limit.
3. The number and specific location of designated spaces.

Recommended Parking Configuration:

- **Location:** North side of Hill Avenue, mid-block between two existing “No Parking” signs.
- **Distance:** Approximately 93 feet separate the two No Parking signs.
- **Crosswalk Consideration:** There is a crosswalk approximately 11 feet from the easternmost sign. To maintain a 20-foot buffer from the crosswalk:
 - A **Time-Limited Parking sign** should be placed **9 feet west** of the easternmost No Parking sign.
- **Parking Area:** From that point west to the second No Parking sign provides **approximately 84 feet** of usable space. Second time-limited sign can be placed on this same pole.
- **Number of Spaces:** This allows for **four parking spaces**, each 21 feet in length.
- **Markings and Equipment:**
 - Stall lines should be painted to clearly delineate each space.
 - A **Safety Stick** should be installed at the rear of each space to monitor license plates and track time limits.

Proposed Parking Limit:

- **Time Limit:** 15 minutes.
- **Signage:** Time-limited signs should include directional arrows to clarify the boundaries of the restricted area.
- **Wording:** Wording should indicate the amount of time allowed to park and that parking must be between the posted signs.

Enforcement and Citation Process:

- Citations should be issued by **Safety Stick** only **after confirmation of a violation** by a Wyomissing Police Department officer.
- The revenue share would follow the model previously discussed (40% to the vendor, plus an additional \$2–\$3 per citation, as noted by Ken Wollins at the June meeting). The final fee split, and terms would need to be set in the contract.

Risk Mitigation:

- The contract should include a clause that if sufficient revenue is not generated from violations, the Safety Sticks will be removed so there is **never any cost to the Borough** for utilizing the Safety Stick devices.

The photos below indicate the area where I believe the time-limited parking should be allowed.

John G. Phillips

Chief of Police
